

*If you've heard how hydrofracking will solve the economic problems of New York, if you've heard how hydrofracking poses no threat to humans or the environment, then we invite you to learn*

# THE TRUE COST OF HYDROFRACKING

*From This*

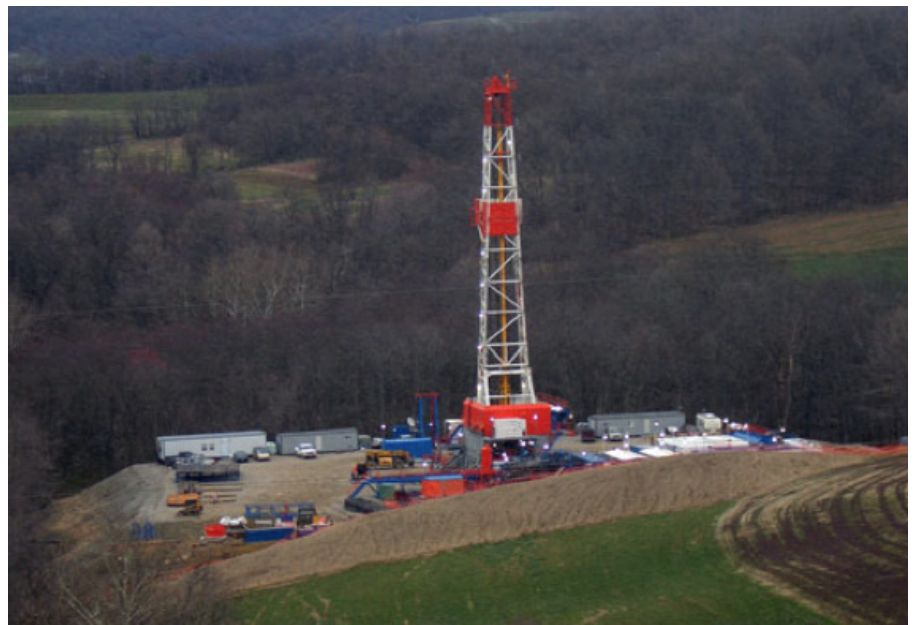

**Introduction** — Joe Heath, General Counsel for the Onondaga Nation.

**The Economic Cost** — Dr. William Podulka, a physicist interested in energy and environmental issues, is chair of ROUSE (Residents Opposing Unsafe Shale-Gas Extraction), which works to protect the public and to educate it about gas drilling issues. He will discuss reports that have examined the economic impact of gas drilling.

**The Human Cost** — Barbara Jarmoska lives in the “Marcellus Sacrifice Zone” in north-central Pennsylvania. She will tell us how hydrofracking has impacted her life and her 20 rural acres.
